4. Payroll
5. Onboarding
6. Exit
7. Performance
8. Employee Self-Service
9. Workflow Engine
10. Task & Checklist
11. Reports & Analytics
12. Communication
13. Employee Experience
14. Multi-Company
15. Role & Permission
16. Integrations
17. AI & Automation
18. Asset Management
19. Learning
20. Expense Management

21. HR Helpdesk
22. Visitor Management

Core System Architecture

Users → Authentication & RBAC → Core Modules → Automation Engine → Notification Engine → Integration Layer → Database

Core Automation Flow

Employee Action → Workflow Engine → Business Rules → Approval Engine → Notification Engine → Database Update → Dashboard Refresh

AI Features

Resume Screening, Candidate Matching, HR Assistant, Interview Assistant, Payroll Validation, Attendance Anomaly Detection, Performance Insights, Attrition Prediction, Workforce Planning, Smart Reports

Integrations

Biometric, Face Recognition, GPS, WhatsApp, Email, SMS, Calendar, Accounting, ERP, Cloud Storage, REST APIs

Phase 1 (MVP)

Authentication, Company Setup, Employee Management, Recruitment, Attendance, Leave, Payroll, ESS, Onboarding, Exit, Dashboards, Reports, Mobile App, Notifications

Development Priority

P1 Authentication & RBAC
P2 Company Setup
P3 Employee Management
P4 Recruitment
P5 Attendance & Leave
P6 Payroll
P7 ESS
P8 Reports
P9 AI & Automation
P10 Integrations
